

LED Class 2 Safety Vest

Thank you for purchasing your new LED Vest

Included:

- LED Class 2 Safety Vest
- 2200 mAh Lithium ion rechargeable battery
- Micro USB wall charger

Operation of the LED Vest

1. Battery should be fully charged before use.
2. Plug battery into vest power cord located on the inside of the vest behind the function button. (Exhibit B).
3. Use function button on front of vest (Exhibit C) to turn the vest on (Fast flash, Slow flash, On, Off).
 - a. Magnetic connections on shoulders must all be connected in order for LEDs to turn on (Exhibit D).
4. When LED's start to dim, turn vest off, remove battery and follow charging instructions.
 - * Your vest battery also functions as a power bank. Connect a USB cord to the battery Power bank USB Port to charge other devices.

Charging Instructions

1. Plug Micro USB charger into a 120/240 VAC wall outlet.
 2. Insert the Micro USB end into the charge port in the battery.
 3. The LED indicator on the battery charger will flash red. This indicates that the battery is being charged. A discharged battery will take approximately 3-4 hours to completely charge.
 4. When the battery is fully charged the LED indicator will glow solid red. You may disconnect the battery and plug it back in for use.
- *Only use included battery or manufacturers replacement.

Warranty

All products and accessories are subject to a 1-year warranty from the date of purchase.
