

# 40/36V BATTERY POWERED ROTARY SAW

## E10FD RESCUE SAW

### FIRE DEPARTMENT 10 Inch Battery Powered Rescue Saw

Gasoline Performance in a Battery Powered Rotary Saw

The K12-E10FD is a lightweight, battery-powered 10" rotary cutter with a powerful brushless motor comparable to a 2+ hp gas saw. This motor is 25% more efficient providing consistent high torque, excellent power-to-weight ratio, low noise, low vibration, zero emissions, with ergonomic handling. Includes a built-in wet cutting kit for dust control, intuitive keypad with electric blade brake, reflective glow-in-the-dark labeling, rear rope eyelet and scrench tool holder. Running on Husqvarna 36V BLI batteries, compatible with legacy products using the same 40/36V batteries.

Our bundle comes with a 10" PIRAYA Diamond Blade so you can make fast, efficient cuts in steel, concrete, glass, and more up to 3.94 inches deep. This saw is adaptable for wet or dry cutting and ideal for quick scoring, trimming, and lighter cutting tasks. If you add an optional 10" Blazer carbide tipped blade, single deck roof ventilation is in your reach with this lightweight powerhouse.

### E10FD #K12FDE10 Battery Powered 10" Rotary Rescue Saw:

The E10FD provides the convenience of battery power with the performance needed for confined spaces and rapid on-site work. Battery, charger, and blade sold separately or available as a bundle below.

**K12FDE10** Battery Powered E10 Saw Only, 40/36V, 10" blade guard (No Blade, No Battery, No Charger)

**K12E10-22BDL** Battery Powered E10 Saw Bundle Contains: (1) K12FD-E10 Saw, (1) Quick Charger (2) BLI Batteries (9.4Ah 40/36V), (1) PIRA-10FD Multipurpose Diamond Blade, (1) Concrete Cutting Diamond Blade.

**BLI330** Individual Part - BLI-330 Battery, 9.4 Ah, 36v,
